

**REMARKS**

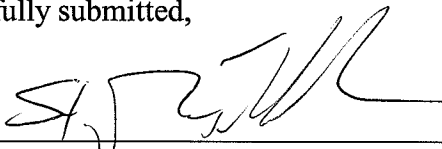

Claims 1-31 and 39-47 are pending and indicated as being allowed.

Claim 6 was amended by the Examiner for lack of antecedent basis for the recited flow channel. However, the flow path recited earlier in claim 6 is corrected to recite "flow channel" so that proper antecedent basis for this phrase is provided. In this regard, claim 6 is also amended in the last line to reflect this amendment.

Entry of the present amendment is respectfully requested.

Respectfully submitted,

By: \_\_\_\_\_
